

Job Title: BIM Modeler
Reports to: BIM Lead and Director
Job Purpose: Our relatively new but growing office in Noida is looking for a BIM Modeler who has the right experience and skills to work on a variety of international and local projects, ranging in both scale and scope.

Eckersley O'Callaghan is one of the most innovative engineering design firms in the world, with a global reputation cultivated through a commitment to research and creative thinking. We enjoy working with a range of materials, forms and building types across diverse sectors and project scales to deliver imaginative solutions. Our multiple award-winning collaborations with forward-thinking architects such as Foster + Partners, Zaha Hadid Architects and Heatherwick Studio, for clients that include Apple, Google, Vitsoe and Bulgari, have placed us at the forefront of design in structures and facades. Our commitment to sustainability, digital design, and continuous research and development remains at the core of our approach.

We offer a stimulating work environment with enthusiastic, intelligent, hard-working colleagues, and support personal development through training and project opportunities. Our principal office is in London, with other offices in Manchester, Paris, Milan, New York, Los Angeles, San Francisco, Delhi, Hong Kong, Shanghai and Sydney.

DESCRIPTION

We are looking for people with the following:

- A good degree or certification in related discipline (civil engineering, architecture, BIM, etc.)
- 2+ years' proven experience in Revit modeling
- Good English language communication skills and collaborative approach
- Good knowledge of AutoCAD is a bonus.

RESPONSIBILITIES

- Report to the BIM Lead and Director
- Create precise 3D BIM models.
- Develop plans, sections, elevations and details from 3D BIM model.
- Take ownership of modeling, drawings and documentation production process
- Understand and implement industry wide BIM standards.
- Develop details and drawings from conceptual ideas and engineer's sketches.
- Annotate and dimension details on drawings as per company standards.
- Review model and drawings to ensure compliance with design.
- Highlight potential problems and look for a solution.
- Interact with engineers, architects and clients to coordinate BIM modeling and drawings.
- Create 3D views or renders for project use or marketing purposes.

PREFERRED ATTRIBUTES

- Good organisational skills and the ability to cope with a variety of tasks.
- A flexible, positive approach and the ability to work as part of a team in a busy, creative atmosphere.
- Excellent interpersonal skills with the ability to communicate with people of all levels.

WE OFFER

- A stimulating work environment with a smart, diverse and motivated set of colleagues
- A competitive benefits package.
- Volunteer and outreach opportunities
- Flexible working around core hours
- Opportunities for continuing professional development including mentoring to charterhip.
- An internal training programme for employees at all levels

- Opportunities for career growth
- Opportunities to take part in internal R&D activities.
- Collaboration opportunities with our international offices
- World-class projects with leading architects and collaborators
