

**Job Title:** CAD Technician  
**Location:** Noida  
**Reports to:** Senior CAD Technician

**Eckersley O'Callaghan** is one of the most innovative engineering design firms in the world, with a global reputation cultivated through a commitment to research and creative thinking. We enjoy working with a range of materials, forms and building types across diverse sectors and project scales to deliver imaginative solutions. Our multiple award-winning collaborations with forward-thinking architects such as Foster + Partners, Zaha Hadid Architects and Heatherwick Studio, for clients that include Apple, Google, Vitsoe and Bulgari, have placed us at the forefront of design in structures and facades. Our commitment to sustainability, digital design, and continuous research and development remains at the core of our approach.

We offer a stimulating work environment with enthusiastic, intelligent, hard-working colleagues, and support personal development through training and project opportunities. Our principal office is in London, with other offices in Manchester, Paris, Milan, New York, Los Angeles, San Francisco, Delhi, Hong Kong, Shanghai and Sydney.

### DESCRIPTION

We are looking for people with the following:

- A good degree, diploma or certification in related discipline such as civil engineering, architecture, CAD, technical drawings
- 1+ years' experience in detailing in a consulting or construction firm
- Excellent knowledge of 2D AutoCAD and preferably also 3D AutoCAD
- Good English language communication skills and collaborative approach

### RESPONSIBILITIES

- Working with our Senior CAD Technician and Engineers to draft details from concept design stage through to contract stage
- Producing technical drawings in a clear and consistent style
- Maintaining a library of facade and structural details
- Collaborating with EOC engineers and technicians to share best practice, coordinate with practice-wide CAD standards and protocols
- Managing issue of drawings to relevant parties on a timely basis.
- Work to the CAD drawing weekly schedule.
- Being responsible for meeting agreed deadlines and managing time to meet programme
- Maintaining an awareness of industry systems

### JOB KNOWLEDGE, SKILLS AND EXPERIENCE

- A keen interest in quality drawing work
- Excellent knowledge of AutoCAD 2D and 3D
- Motivated and committed to delivering high-quality design work

### PREFERRED ATTRIBUTES

- Excellent interpersonal skills with the ability to communicate with people of all levels
- Good organisational skills and the ability to cope with a variety of tasks
- Adaptable and collaborative approach with the ability to work as part of a team in a busy, creative atmosphere

**WE OFFER**

- An inclusive workplace that values diversity, collaboration, and professional excellence
- Opportunities for continuing professional development and mentoring
- Access to research, innovation, and company R+D initiatives
- Collaboration opportunities with our international offices
- World-class projects with respected architects and collaborators
- A supportive environment that encourages career growth at all stages
